

It has come to my attention that LPFM broadcast service could in the future take priority over FM translator service. Our local K-LOVE (90.1) station is broadcast in translator service and I would hate to think that it could be taken off the air. In a rural area such as I live in there are very few Christian/Family radio stations to choose from, K-Love being the main one. K-LOVE is a refreshing voice in a troubled world and it would be a terrible loss to the small communities such as mine and to the larger markets as well. Please take this into consideration when deciding on the LPFM issue. This action would take away for many the only form of radio entertainment enjoyed or even accepted. Thank You for your consideration.
